About Maruichi SunSCO

Maruichi SunSCO is a leading steel sheet & pipe producer in Vietnam. It is focused on high quality product market where the company can apply the engineering and ingenuity of 14 Japanese & 500 professionally trained Vietnamese members working on site.

Equipment

Maruichi Sunscoc installed *the first Hyper UC-Cold Rolling Mill in Vietnam* in June 2021. This state of the art Hyper UC mill is supplied by the world's leading steel mill builder, Primetals Technologies (formerly Mitsubishi - Hitachi Machinery, Siemens VAI), is capable of producing thin CRFH sheets of 0.1 millimeters in thickness

Raw Material

Maruichi Sunscos sources specially designed raw material mainly from its shareholder, JFE Group.

This fact alone can provide Sunscos with quality advantage over other manufacturers in Vietnam.

CRFH Product Feature

Steel Grade	Maruichi grade equivalent to SAE1006/1006B/1012/1018
Standard	G3141 Equivalent Cold Rolled Carbon Steel Sheet & Strip
Thickness	0.100 - 1.200mm
Width	700 - 1250mm
Weight	Maximum 25MT
Off Gauge	300 - 530KG/coil <i>*Please consult with your contact for more detail</i>
Lubricant Oil	Can be cleaned in CGL by NaOH based solution* <i>*Parkerizing brand has continusly shown good results</i>
Others	Country of Origin Certificate (Form D, CPTPP) available

Off Gauge Image

Approx 13m of "not-rolled-to order" sheet (off gauge) is in inner side of the CRFH.

Off-gauge area is identified by mark drawn on the edge.
